Work experience

Full Stack Developer

Since October 2023

.., Addis Ababa

Over the past months, I have fully immersed myself in mastering full-stack web development, focusing strongly on JavaScript, React, and React Native. After graduating with a degree in Computer Engineering, I followed my passion for programming by dedicating countless hours to self-study. During this time, I honed my skills in web and mobile applications, driving my commitment to becoming a proficient and versatile developer.
